Brief summary of the event

The speaker, Mr. Mahadev Shinde gave the pledge to the students for not to use single use plastic. He said we are surrounded by the numerous Polythene bags which not only cause a waste disposal problem but also are a type of non-biodegradable waste because they cannot be decomposed by the bacteria let us say no to polythene bags. So many of environmentalists have said that the use of Polythene bags can create pollution and can also call the problems but never had we said no to the Polythene bags because it is our character that we do the thing which is not destined to be done.

The plastic bags left as a garbage would severely affect the wild life. Stray dogs and cows would eat them along with the food left in them. Marine creatures would mistake them to be jelly fish and consume them. Even the sea birds and turtles also eat the pieces of plastic bags thinking them to be of some kind of prey. Such an intake is almost fatal to creatures either instantly or in the long run

Its so easy to say no plastic bags. Keep a bag made out of jute or cotton with you. Don't insist for a plastic bag if you don't need one. If you have purchased a single commodity, carry it by hand. Don't throw away the old plastic bags carelessly. Whenever you wish to depend on a plastic bag, be aware of the fact that it would be for centuries together on the earth. So, let's keep our earth clean!

Dr. Naik expressed vote of thanks.

Brief summary of the event

In this event Dr. Dinesh Naik welcomed the guest and gave welcome speech. In his speech Mr. Sachin Vidhate said- You may be aware that over 1.51 lakh people lose their lives every year in our country in road accidents and many more are debilitated. This causes immense economic hardship and emotional trauma in their families. There is an urgent need to make our roads safer as the loss of lives and limbs cannot be accepted as the price of mobility.

The Central and the State Governments have been implementing various measures to make our roads safer. But the magnitude and gravity of the problem are such that these alone will not suffice. There is a need for the society at large to take cognizance of the issue and to join hands to make road safety a social movement.

To give all the stakeholders an opportunity to take part in concerted action for the cause. "National Road Safety Week" is observed throughout the country every year in order to highlight and emphasize the need for safe roads. It is also an opportunity for all stakeholders to contribute to the cause by taking up activities to promote the concept. The 31st Road Safety Week will be observed from 11th January to 17th January 2020.
Mr. Vidhate also explained some very important tips for safe driving on roads. Dr. Manisha Bhange expressed vote of thanks.

Brief summary of the event

Pulse Polio Programme was arranged on 19-1-2020 to 24-1-2020. For the Pulse Polio Programme. One day training programme was arranged by Akurdi Hospital and Sindhu Nagar OPD on 16-01-2020. In the training Mrs. Vairagi sister gave the necessary instruction of polio vaccination, maintenance of cold chain, record keeping etc. She also gave the plan of door to door visits and polio vaccination in the nearby localities for the complete success of the programme. Dr. Naik expressed the vote of thanks.

On 19-1-2020 students from our college were posted on various polio vaccination booths. And from 20-1-2020 to 24-1-2020 the students were distributed in smaller groups. They visited every home and gave polio vaccine to the children of age group 0 to5.

Our students worked dedicatedly and it was appreciated by the in charge medical officers of Akurdi Hospital and Sindhu Nagar OPD of PCMC, Pune.

Brief summary of the event

This lecture was arranged for the event of leprosy day. In his speech Mr. Ravishankar Bharad said- I think of the harsh life that persons affected by leprosy have had to endure abandoned by their families, isolated from society and deprived of their freedom. Today, through the efforts of many people, leprosy is an easily curable disease. The drugs are distributed free of charge. Early detection and treatment help prevent disability. But despite the progress of science and the fact that leprosy can be treated with drugs, just like other diseases, there are still people suffering from the unwarranted discrimination that exists toward leprosy.After they have been cured, they are labelled 'ex-patients' and continue to face discrimination. We have not only to fight the disease, but also the prejudice and discrimination that have infected society.

In order for leprosy patients to feel they can go to hospitals and clinics to receive treatment, just as they used to before they contracted leprosy, and for them to be able to lead full lives in society, all of us need to have a correct understanding of leprosy and compassion toward those with the disease. Let's make today a new beginning. Let's do our best together.

Dr. Dinesh Naik expressed vote of thanks.

Brief summary of the Blood Donation Camp

On the occasion of Birth Day of Hon. Mr. Sharad Pawar, NSS and ARSMH, Nigadi organised Blood Donation Camp in the hospital. A team of doctors, technician and nurses of Pimpri serological Institute blood Bank, Pimpri Pune 18 came for collection of blood.

The activity of blood donation was started with inauguration by Hon. guests from PDEA Adv. Mohanrao Deshmukh, Adv. Ashokrao Khaladkar and Principal Dr. Patil madam. The donors were asked to fill a medical form to give details about their health-related information.

Before the donation, checking weight, pressure, and body temperature were measured. There was a good response from staff and student donors. A total of 33 units were collected in the camp. Some of the donors who could not donate this time were assured for donation in the next camp. A Certificate of appreciation, donation card, refreshment was given to each donor as a token of gratitude.

The Guests appreciated the organisers, hospital and college for such a noble and useful social activity in the pandemic situation of COVID19 disease.

Brief summary of the event

Topic of Guest Lecture- Youth mental health awareness.

In association with- Parivartan Trust.

Speakers- 1) Krutarth Shevgaonkar 2) Shruti Madhudeep

Mental health is not just a concept that refers to an individual's psychological and emotional wellbeing. Rather it's a state of psychological and emotional wellbeing where an individual is able to use his cognitive and emotional capabilities, meet the ordinary demand and functions in the society.

Mr. Krutarth Shevgaonkar said Mental health is related to the personality as a whole of that person. Thus, the most important function of college and education is to safeguard the mental health of boys and girls.

Miss. Shruti Madhudeep said mental disorders, are a wide range of conditions that affect mood, thinking, and behaviour. Many people with mental illnesses are now fighting to increase awareness of disorders like depression and anxiety, and some argue that the best way to educate about mental illnesses is to teach about it in college. By educating about mental illnesses in schools, activists are hoping to increase understanding about the topic and prevent teenagers who have mental illnesses from feeling alone. Thousands of youths are suffering from disorders such as depression and anxiety. Youths developing these disorders often don't get the help or support that they need to know how to handle them.

Dr. Dinesh B. Naik Introduced the speakers and also felicitated them. At the end he expressed vote of thanks. Students were satisfied with the lecture.

D.O. No. T-13012/01/2020-Imm-part (1)
16th December 2020

Dear Madam,

As you may be aware, the last case of Polio in India was reported on 13th January 2011. India continues to maintain its polio free status, though wild polio cases are being reported globally only from two of our neighboring countries. This has been made possible due to sensitive polio surveillance with quality pulse polio rounds to maintain population immunity. The Ministries of the Central Government, State Governments, partners and other stake holders must be appreciated for having worked together to ensure that the country maintain population immunity by observing quality pulse polio rounds thereby helping the country to remain polio free.

2. In the last three years, the world is seeing a surge in polio cases in two polio-endemic countries in our immediate Neighborhood. In 2020 (till 17 Nov), 135 wild polio virus cases have been reported as compared to 176 cases for entire period of 2019. Hence, there is no room for complacency. To mitigate this risk, the India Expert Advisory Group on Polio eradication has recommended intensive polio vaccination campaigns until the virus is interrupted globally. As per these recommendations, the Department of Health and Family Welfare has decided to conduct a nation-wide polio vaccination campaign **on 17th January, 2021.** All the Infection prevention and COVID-19 appropriate protocols will be adhered to while conducting this mass drive.

3. Since the inception of the programme, your ministry has been supporting these polio vaccination campaigns. We again solicit your unstinting support for the upcoming pulse polio campaign. The Department of Youth Affairs may kindly advise members of their field formations to be a part of booth, house to house and transit teams during pulse polio immunization days, take out rallies in support of the programme and to motivate their neighbors for taking out children for polio vaccination during the upcoming NID.

Regards.

Yours sincerely,

Brief summary of the event

Pulse Polio Programme was arranged on 31-1-2021 to 5-2-2021. For the Pulse Polio Programme, one day training programme was arranged by Akurdi Hospital on 29-01-2021. In the training Mrs. Jagtap sister gave the necessary instruction of polio vaccination, maintenance of cold chain, record keeping etc. She also gave the plan of door to door visits and polio vaccination in the nearby localities for the complete success of the programme. Dr. Naik expressed the vote of thanks.

On 31-1-2021 students from our college were posted on various polio vaccination booths. And from 1-2-2021 to 5-2-2020 the students were distributed in smaller groups. They visited every home and gave polio vaccine to the children of age group 0 to5.

Our students worked dedicatedly and it was appreciated by the in charge medical officers of Akurdi Hospital of PCMC, Pune.

Brief summary of the event

Topic of Guest Lecture- Emotional First Aid.

Speakers- 1) Mr. Krutarth Shevgaonkar 2) Mrs. Madhuri Awate 3) Mr. Brhmanath Nilkanth

When we are hurt emotionally, do we make an effort to treat ourselves or seek emotional first aid? Does it need to be taken care of? Well, yes! It does.

Mr. Krutarth Shevgaonkar said- We may be suffering emotionally for one or more reasons like loss of a dear one, work-related issues, peer pressures, societal concerns, humiliation, rejection, loneliness and depression, etc. If we are physically fit, but emotionally drained it does, in turn, may affect us physically.

Mrs. Madhuri Awate explained when we need emotional first aid- loss of sleep, irritability, impulsiveness, loss of appetite, which in turn is going to affect your overall health and performance. This may become a vicious cycle worsening your ability to even think of coping with the problem. Most of the time you may end up making inappropriate decisions.

Mr. Brhmanath Nilkanth said- Rather than letting yourself pass through such an avoidable mental and subsequent physical harm, you can practice emotional first aid like you may be using home remedies to treat trivial ailments. Emotional first aid is simply a method of helping yourself to cope up emotionally to handle the situation positively instead of getting bogged down by it.

Dr. Dinesh B. Naik Introduced the speakers and also felicitated them. At the end he expressed vote of thanks. Students were satisfied with the lecture.

Sub: Permission to conduct a Diabetes checkup camp at ARSMH

Dear Madam,
At the outset, I would like to thank you for allowing us to conduct a Diabetes checkup camp at ARSMH in November 2021. This camp received very good response- we could identify around 10-15 pre-diabetic individuals for our study and could refer diabetic individuals to Kayachikitsa department for further management. Considering this success, we wish to conduct another camp at ARSMH from 7th to 9th March 2022.

Like the earlier camp, random blood glucose test using strip method and Indian Diabetes Risk Score of all the individuals attending the camp will be estimated. If anyone gets identified as a potential pre-diabetic, then he/she will be counselled for participation in our study. Rest of the individuals with any other health issues or elevated sugar levels beyond the pre-diabetic range will be referred to the Kayachikitsa department for further treatment. All the expenses towards the arrangement of the camp (pamphlets for publicity and test charges) will be borne by us. We expect place to conduct these activities and one intern/houseman from the Kayachikitsa department for the camp to help us in coordinating local logistics.

I also take this opportunity to thank Dr. Medha Joshi and her staff for their whole hearted support during our camp. It is needless to say that we will duly acknowledge the help received from your Institute in the manuscripts emerging from our study.

Thanking you in anticipation,

Yours sincerely,

Dr. Supriya Bhalerao,
Associate Professor & Principal Investigator
