प्राचार्य

Subject – Letter of appreciation and gratitude for permitting your faculty to participate in research project of Maharashtra University of Health Sciences, Nashik And A.S.S. Ayurved Mahavidyalaya, Nashik titled 'Documentation of Local Health Traditions in Maharashtra.'

Resp. Madam,

Maharashtra University of Health Sciences, Nashik And A.S.S. Ayurved Mahavidyalaya, Nashik are conducting a collaborative research project titled 'Documentation of Local Health Traditions in Maharashtra.' In this project the traditional knowledge regarding health practices is being documented.

This ambitious project is headed by the Principal Investigator Hon. Vice Chancellor Dr. Deelip Mhaisekar and Co - Investigator Hon. Pro Vice Chancellor Dr Mohan Khamgaonkar.

Objectives of this project include documenting the traditional medicinal knowledge, healing procedures, interpreting the traditional medicine knowledge, understanding the method of diagnosis of diseases by LHT practitioners, knowing more about the different parts of plants, animals and minerals, methods of preparations, combinations, storage to be used in medicine, dosages and various routs of administration, the proper collection methods to medicinal materials in traditional medicinal knowledge.

This project would facilitate the newer knowledge to be in the stream. The faculty and thereby the institutions which are facilitating this project are being credited for the participation in a valued project run by the University.

The faculty from your college who are listed below were invited to participate in this project and they have paid their invaluable contribution. Yourself and hon. management allowed the noted faculty to participate in this project and provided them the consent to participate. This has marked the welcome gesture you have passed.

Brief summary of the event-

Kayachikitsa Department & dravyaguna department organized a visit to area of Bhimashankar, khed, Pune. Total 18 PG students participated in This event.

Bhimashankar forest area is famous for its biodiversity and endangered species of rare medicinal plants.

Many folklore medicine healers are found here who give medicines from the knowledge they have about the medicinal use of such rare plants.

Students interacted with this traditional healers and learned about different species of medicinal plants used by folklore healers. The preparation of various oils, Powders, and use of fresh plants were explained by traditional healers on various diseases like Diabetes, Hypertension, thyroid abnormalities, weight loss, arthritis etc.

Rare medicinal plants seen by students – vana palandu, jivaka, Jangli lasuna, Bedakileaves, jangli Ardraka, Ardha supari, asvala, chichori, musli, bandak, raanchinchoka, nalkand, raan halad, naagphana, asana, kombadnakhi, chavi, bhoma, pachangadi, kusar.

Students also collected many rare medicinal plants species and tubers for plantation as a small effort in conservation of this plants.
