Ayurveda Day Celebration 2022

**Presented by:- Mustafa Tajmul Mulani,
Asad Gous Tamboli,
Pushkar Rohidas Ghodekar.**

Hemadpant

- **Origin**
Hemadri Pandit was born in a Deshastha Rigvedi Brahmin (DRB) family that had its origin in the Hemadri village in the Dakshin Kannada District of Karnataka.
Hemadri was born in the southern Kannada speaking regions of the Yadava kingdom in a Kannada Madhyadina Shaka Brahmin family.
- **Cultural contributions**
Hemadri introduced use of Modi script for Marathi (cursive style of writing Marathi) in government correspondence.
He conceived of Hemadpanti architecture of buildings and temples which did not use lime.
He introduced plantation of pearl millet (Bajari) as a staple crop.
He encouraged and supported many artists and writers like Bopadev and studied their books and presented his own criticism.

Govind R. Dabholkar
Hemadpant

- **Career**
Hemadri was a diplomat, an administrator, an architect, a poet, and a theologian and scholar.
During his prime ministership, the Yadav kingdom reached its zenith; soon after his tenure, the Turkic emperor at Delhi, Alauddin Khalji, and his successors ended the Yadav rule in southwestern India.

- **Writings**
Hemadri wrote the encyclopedic book about dharma, *Chaturvarga Chintāmagi*.
It contains, among other subjects, thousands of Vratas along with the modus operandi for performing them.
He wrote the commentary named *Ayurveda Rasāyan* on Ayurvedic Samhita 'Ashtānga Hridayam', containing descriptions of various diseases and remedies for them.
A small historical book, *Hemadpanti Bakhar* is credited to him.
He created *Mestakas* to standardize procedural parts of the state administration.

PITUITARY ADENOMA

Pituitary adenoma-
-The tumour is composed of a uniform population of small acidophilic cells.
-The exact nature of this adenoma could be determined only immunohistochemically using antibodies to one of the pituitary hormones. In this case the cells reacted with the antibodies to prolactin and thus the tumour was subclassified as prolactinoma.

CYSTADENOMA OF OVARY

Labels in diagram:
- Multilaminar layer
- Stratified cuboidal epithelium composed of simple cuboidal cells
- Mucosa in the lumen
- Fibrous capsule

-They classify as benign, borderline, or malignant tumors. Ovarian cystadenomas are common benign epithelial neoplasms which carry an excellent prognosis.
-The two most frequent types of cystadenoma are serous and mucinous cystadenomas whereas endometrioid and clear cell cystadenoma are rare.

Post Event Summary Report

Date- 11-3-2022

Name & Date of the event-

Balloon finger print activity. Date – 17/2/2022

Organising department/ committee- Agadtantra Department

Location of the event- III BAMS Class, CARC, Nigdi, Pune.

Number of persons attending the event- UG students -40.

Mode of event- Online/ Offline- Offline

Drive Link for Photos- <https://forms.gle/HzXBQvUXjuwiNkdW9>

Brief summary of the event- Dr. Anuja Wadadekar and Dr. Jayant Phadke organized Balloon finger print activity as a part of **Innovative Technology** on III yr BAMS, Adale batch (Appearing in July 2022). Total 40 students were participated in this activity. Students were instructed to print their thumb on white coloured balloons by using stamp pad and advised to inflate the balloon so that ridges on the thumb prints shall magnify. By this procedure the ridges of the thumb prints became clearly visible so the major four patterns of finger prints like loops, whorls, arches and composite were clearly identified. Additional help of magnifying lens was taken to detect more details like core, delta, staple, rods. Loop pattern was found in 27 Students, Whorl in 10 students and Arches in 3 students. This activity helps to understand finger prints and their types which is considered as 100 % identity proof in Personal Identification. Students participated enthusiastically in this activity.

Name of Department – Swasthavritta Online Game for students

The screenshot shows the Kahoot! report page for a challenge titled "Disinfection". The challenge is marked as "Finished". The start date is May 31, 2021, 1:00 PM, and the end date is May 31, 2021, 2:00 PM. It was hosted by carcswasth2015. The report shows a "Well played!" message with a 66% correct score. The challenge details indicate 10 players and 20 questions. There are buttons for "Play again", "View podium", and "Share podium". The bottom section shows "Difficult questions (1)", "Need help (0)", and "Didn't finish (5)".

The screenshot shows the Kahoot! challenge in progress page. The challenge is titled "Disinfection". The page lists several questions with their respective images and options. The questions are:

- 4 - Quiz: What is detergent?
- 5 - Quiz: Deodorant means what?
- 6 - Quiz: Which is not a property of a good disinfectant?
- 7 - True or false

The page also shows a "Challenge finished" status and a "View results" button. The bottom section shows a "A public kahoot" section with a list of quiz competitions.
