Brief summary of the event

Under the Transitional Curriculum program lecture of Dr. Madhavi Deodas was arranged for the students of the First Year BAMS new admission. In her speech Dr. Madhavi Deodas emphasized the importance of gender equity. She said- In a society, everyone has the right to lead his/her life without any discrimination. When this state is achieved where all individuals are considered to be equal irrespective of their caste, gender, color, profession, and status, we call it equality. But there is a lot of discrimination.

The age-old social structure dictated that women need to stay inside the home taking care of all when men go out to earn. This has been practiced for ages when the world outside was not safe. Now the time has changed and we have successfully made our environment quite safer, women can step forward, get educated, pursue their passion, bring economic balance in their families, and share the weight of a family with men. This, in a cumulative way, will also make a country's economy progress faster and better.
