8th October, 2021

Respected Madam/Sir,

लेखनिक

प्राचार्य

This is in continuation to UGC letter D.O.No.F.1-54/2019(Website/Swachhata Hi Sewa) dated 30.09.2019 and D.O. No. 14-9/2021(CPP-II) dated 07.06.2021, requesting HEIs to reduce the use of plastic, especially single use of plastic and dispose off plastic waste. UGC also framed guidelines in this regard which are to be adopted in HEIs.

As you are aware, the Government of India has launched a 75 weeklong campaign 'Azadi Ka Amrit Mahotsav' to celebrate the achievements of the country and its people. This campaign not only commemorates the achievements but also motivates and encourages citizens to take positive steps for the growth of the country.

"Awareness programmes to avoid the use of single use plastics" has been identified as one of themes for the campaign with a view to gather momentum, scale visibility and outreach. A suggested list of such single use plastic items is attached. Awareness generation may also be brought out on the recently notified Plastic Waste Management Amendment Rules, 2021, wherein, identified single use plastic item, which have low utility and high littering potential, will be phased out by 2022.

All the Universities and affiliated colleges/institutes are requested to make the awareness programme impactfully in order to avoid use of single use plastics have maximum visibility as part of 'Azadi ka Amrit Mahotsav' and share action taken report on the list of activities undertaken on the email ebsbmhrd19@gmail.com.

It helps the soil retain moisture by increasing microporosity and encourages the formation of good soil structure.

This activity was done for nearby 180 plants in the garden.

Brief summary of the event:

As daily wet waste is produced from kitchen and dry waste is generated in the herbal garden due to fallen leaves, in order to proper utilisation of the huge waste our department of dravyaguna had arranged a workshop on waste management on 28/03/2023 10-1pm.

Mrs Priya Bhide madam and Mrs Bhawe madam were invited to first give a lecture on household waste management and after that they gave demonstration of various instruments or models used in different quantity of kitchen waste. Also various types of natural cultures used for conversion of degradable waste into organic manure which we can use it again for the nurture of plants. Thus madam explained recycling process of nature.

Madam also gave demonstrations of how we can use non-degradable waste into useful models. Mrs Bhawe madam had explained how we can generate biogas energy from wet waste of kitchen and showed model of Biogas unit.

In this way each and every particle of dry and wet waste can be reprocessed to make sustainable nature friendly utilization for human beings.

Utility-The workshop was very much useful for non- teaching staff as well as students & teachers to sensitise sustainable nature friendly living with utilising waste which is created by us only.
