Brief summary of the event:

Anandashram Institute, Pune is 136 years old institute working in very important subject of preservation of thousands of ancient manuscripts collected from different regions. Huge manuscript library is maintained for students & researchers for this fundamental, literary study. There are so many Ayurveda manuscripts also there and exhibition of all the rare, oldest manuscripts was arranged by the institute on 24th March 2023 so dravyaguna departments 1st year PG study tour with teaching staff was arranged in association with Sanskrit Samhita department on that day to visit our ancient traditional treasury. Students took the additional knowledge of various methods of preservation, writing styles and scripts of manuscripts. Discussion with collaboration activities & functional MOUs also done with the trusty of the institute.

Two manuscripts namely 'Kashtoushadhi' and 'Pathyapathyanighantu' was purchased to do further study on it. (Digital print)

Utility-

Preservation of local health tradition through such activities is done and inspiration to the students to do work on unpublished areas in the field of dravyaguna literary research is important with this study tour.

Brief summary of the event-

The purpose of the educational visit was to observe processing of milk and milk products. Prior official permission of visit was taken. Primary information of plant was given by short video presentation. Then students were divided into two groups and led to the visit.

Phases of Milk Process

1. Milk is collected in the collection center in villages where villagers come and sell their milk
2. Primary checking of milk is done for the quality and added to milk holding tanks.
3. It is then transferred through pipelines to boiler unit where milk is boiled to kill germs and to last longer, known as **pasteurization**
4. **Boiler room** - Pasteurization refers to process where every particle of milk is heated up to 63°C for 30 minutes or 72°C for 15 seconds in well-equipped machines

Brief summary of the Event:

Agadtantra department had organized visit to Snake Park, Katraj of UG & PG students on 4th July 2023 on 10 am. Snake bite diagnosis and management is an important topic in the syllabus of Agadtantra of both UG and PG curriculum. To help students to identify snakes, this visit was organized. As many times patient and their relatives bring dead snake or their photos. Identification of snakes thus helps in clinical practice. Many venomous snakes were displayed in Snake Park like cobra, krait, Russell's viper and bamboo pit viper. Other non-venomous snakes like python, rat snake, Trinket were also there. Mr. Rajan Shirke also gave his experience based valuable guidance of "on field management" to the student.
